

DAVI

e-POWER

The first complete line
of **full electric** plate rolls

DAVI

**THE LATEST
INNOVATION IN PLATE
ROLLING MACHINES**

Davi full electric e-POWER is the latest innovation in Plate Rolling Machines.

It is born in our headquarters, located in the most high-tech region of Italy, a land of engines,

ingenuity, and innovation.

Davi e-POWER has a powerful and fast DNA and has been manufactured for accuracy and performance.

It's the future of Plate Rolling.

DAVI

UNRIVALED PRECISION

Next-generation actuators
ensure the highest accuracy

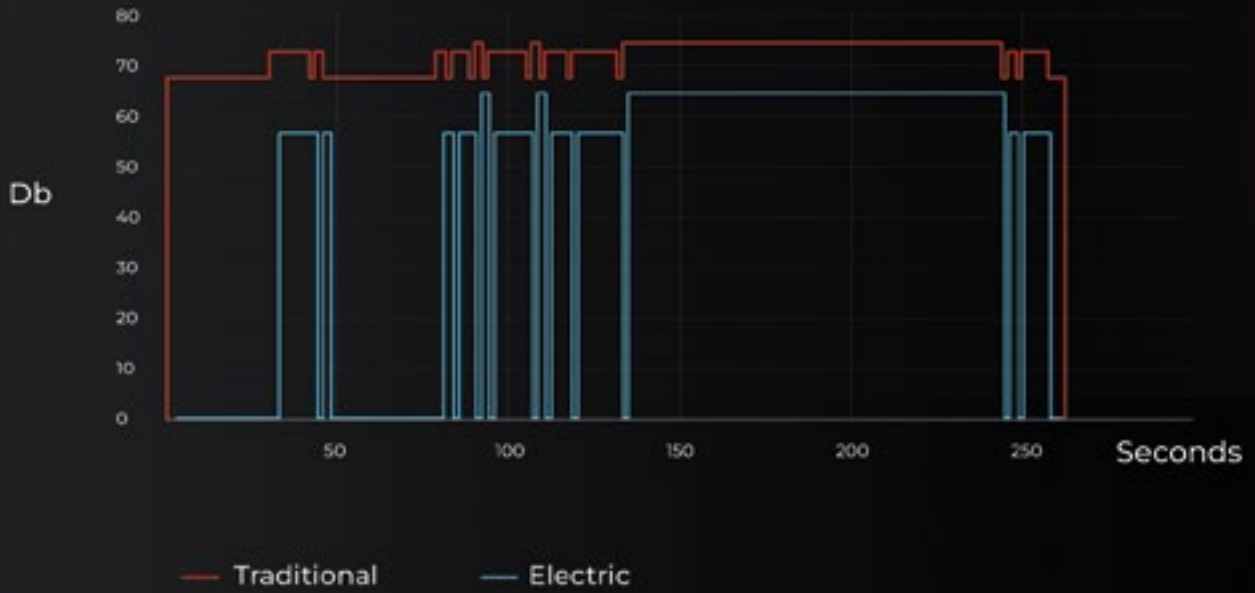

INCREASED PRODUCTIVITY

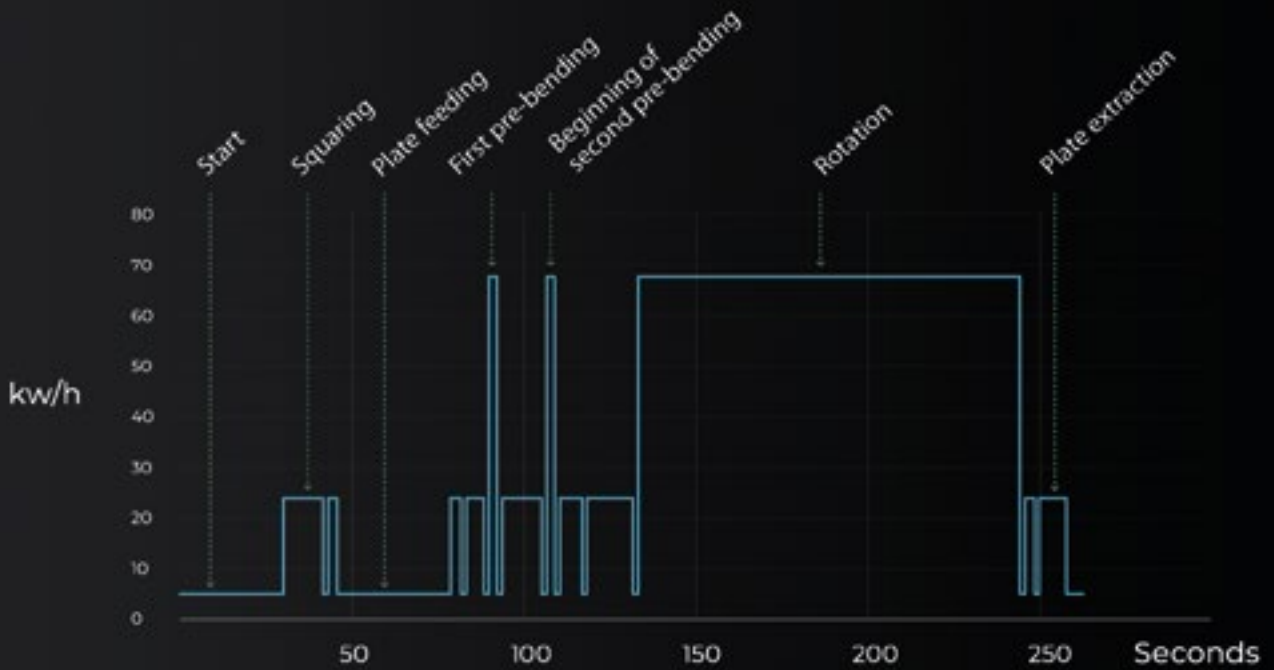

The rolling process is accelerated
across multiple axes

DRAW

Silent Operation

Low Consumption

SILENT OPERATION

Maximum silence both in standby and operational mode

LOW CONSUMPTION

Start&Stop system allows for zero consumption

DAVI

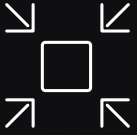

REDUCED MAINTENANCE

No lubrication required due to the absence of hydraulic control units

D

e-POWER

COMPACT DESIGN

With a hydraulic control unit, the plate roll requires less space

EASE OF INSTALLATION

The reduced number of components ensures a simple and fast installation

A close-up photograph of the DAVI plate roll machine. Two large, polished metal rollers are visible, stacked vertically. Below them is a red panel with the 'DAVI' logo in a bold, yellow, stylized font. The background is dark, highlighting the machine's components.
