DAVI SERVICE

DAVI.COM

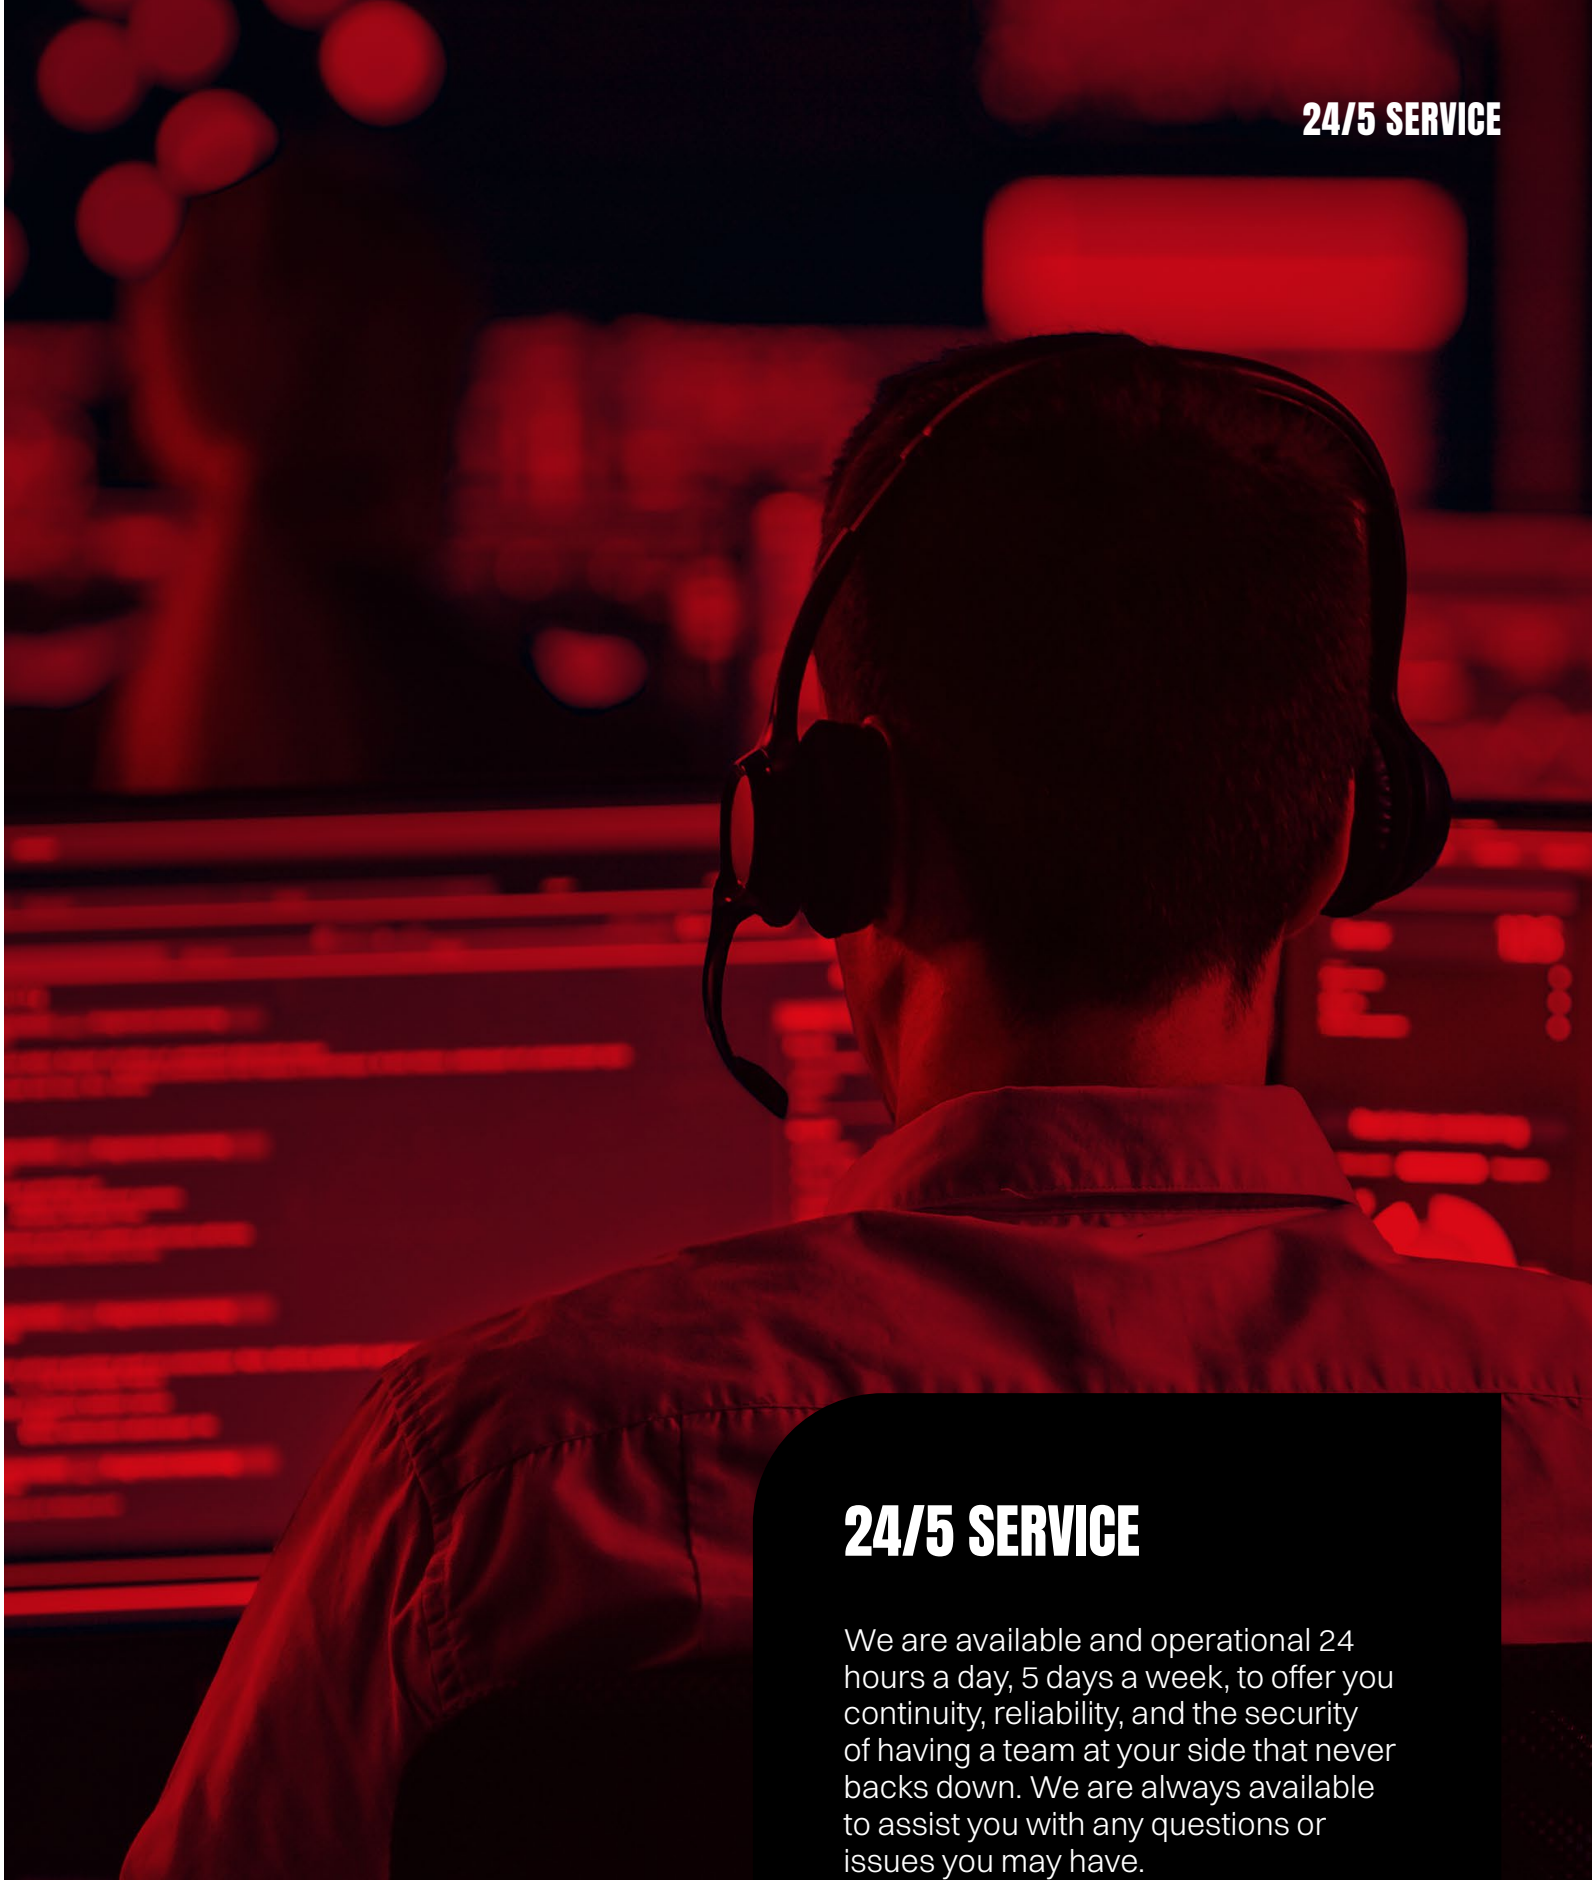

24/5 SERVICE

We know how important it is to be able to count on fast, competent, and always available support.

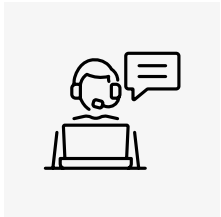

That's why we offer a support service designed to truly meet the needs of our customers.

24-HOUR TELEPHONE ASSISTANCE, MONDAY TO FRIDAY: AN EXPERT ALWAYS ON THE PHONE, READY TO HELP YOU WITH IMMEDIATE ASSISTANCE 24 HOURS A DAY

24/5 SERVICE

We are available and operational 24 hours a day, 5 days a week, to offer you continuity, reliability, and the security of having a team at your side that never backs down. We are always available to assist you with any questions or issues you may have.

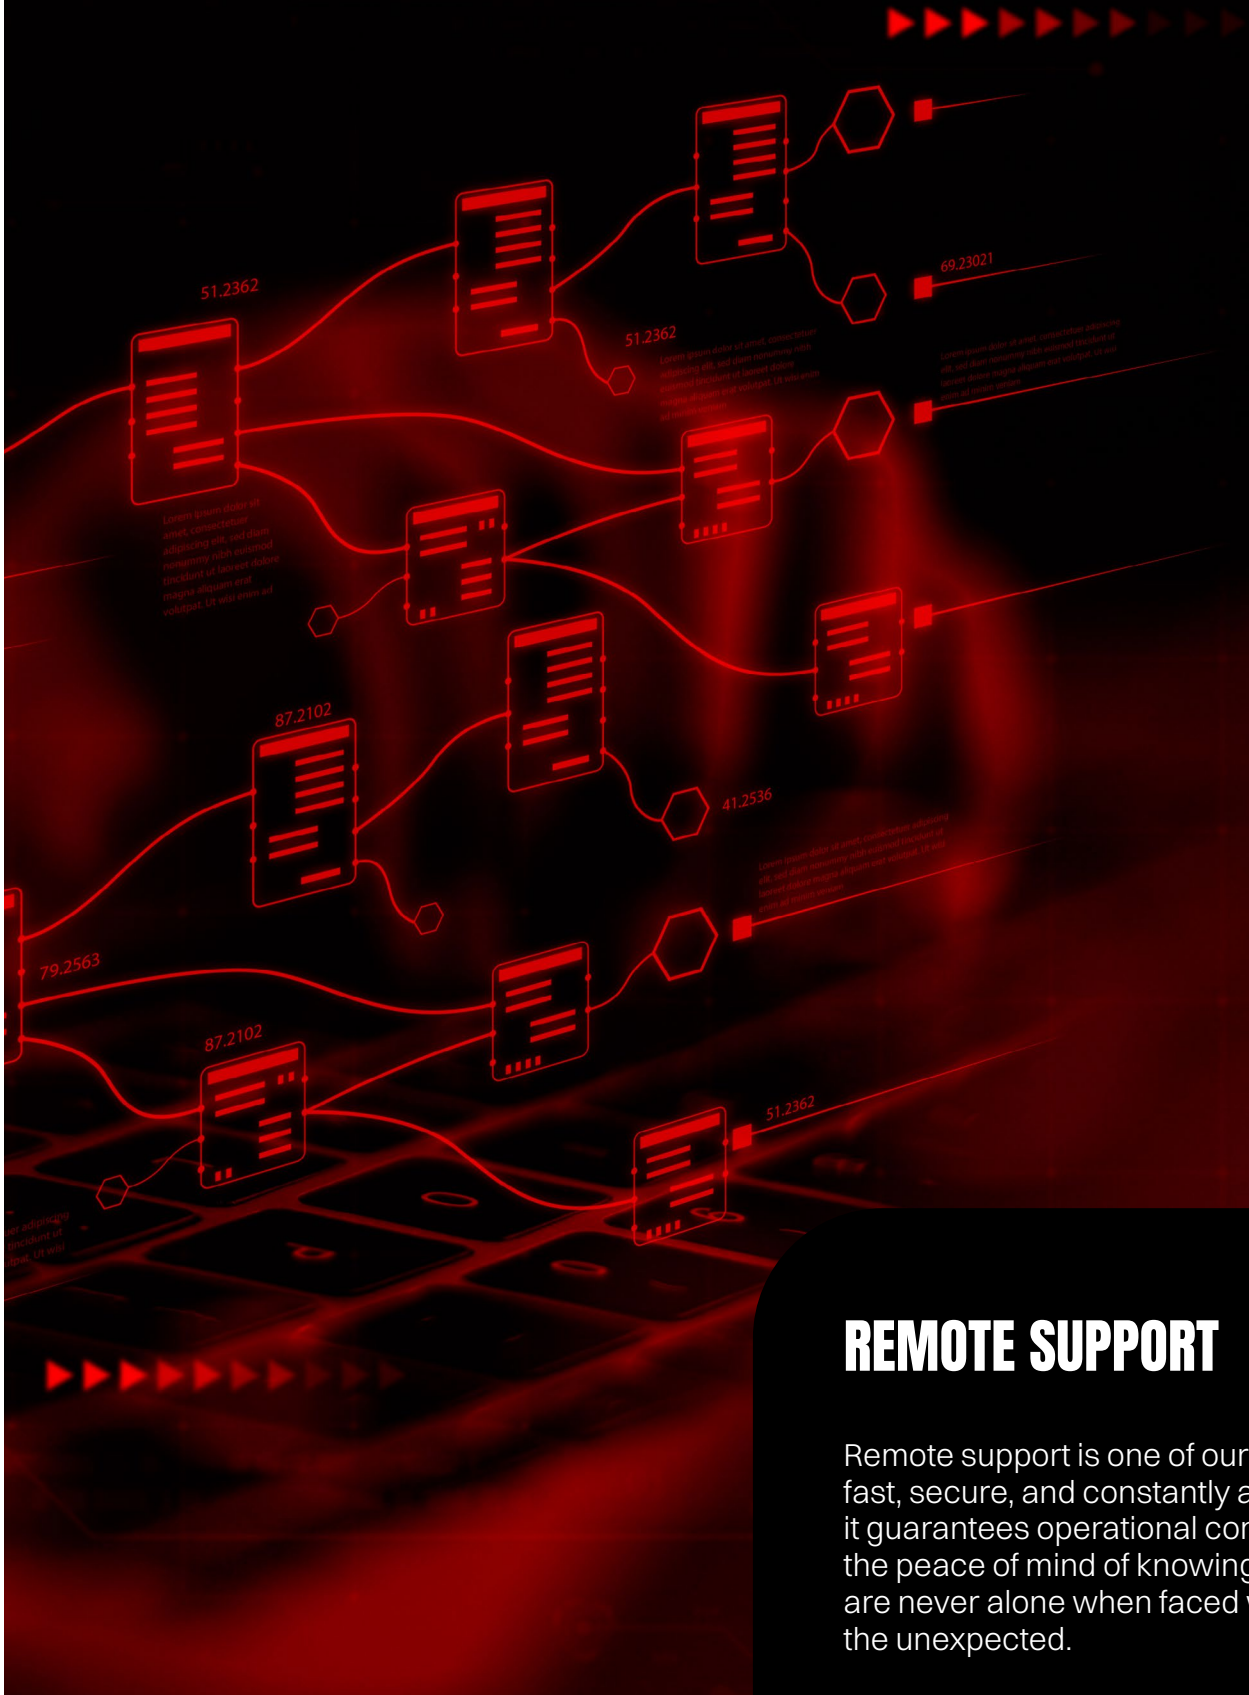

REMOTE SUPPORT

Help is never far away.

Thanks to remote connection to the machines, we are able to intervene directly via the network, quickly and efficiently, without the need to be physically on site.

THIS ALLOWS US TO MINIMIZE MACHINE DOWNTIME BY TAKING IMMEDIATE ACTION AS SOON AS A PROBLEM ARISES. OUR TECHNICAL TEAM CAN ACCESS THE SYSTEM IN REAL TIME, DIAGNOSE THE FAULT, AND PROPOSE EFFECTIVE SOLUTIONS IN JUST A FEW MINUTES.

REMOTE SUPPORT

REMOTE SUPPORT

Remote support is one of our strengths: fast, secure, and constantly available, it guarantees operational continuity and the peace of mind of knowing that you are never alone when faced with the unexpected.

GLOBAL PRESENCE

Davi's strength also lies in its global presence.

With an extensive network of service points distributed throughout the world, we are able to guarantee assistance and technical interventions in a timely manner, wherever the customer is located.

PROXIMITY IS A CONCRETE VALUE FOR US: OUR SERVICE TECHNICIANS WORK CLOSELY WITH THE TERRITORY, READY TO REACH THE CUSTOMER IN A TIMELY MANNER TO RESOLVE ANY TECHNICAL NEEDS.

GLOBAL PRESENCE

We have a network of Davi technicians who are constantly trained and updated all over the world, including near you. This enables us to respond quickly and effectively to all your requests, guaranteeing you continuous support.

SPARE PARTS KITS

Ensuring operational continuity for our customers also means ensuring that spare parts are always available, quickly.

Our logic is simple: prevent machine downtime and minimize waiting times. That's why we keep more than 11,000 different items in stock so we can quickly ship whatever you need.

WE CAN PROVIDE CUSTOMIZED SPARE PARTS KITS AND PACKAGES TAILORED TO EVERY NEED, SO YOU ALWAYS HAVE THE SPARE PARTS YOU NEED AT YOUR FINGERTIPS.

SPARE PARTS KITS

SPARE PARTS KITS

With our spare parts service, efficiency and responsiveness are guaranteed, wherever you are. Because every minute counts, and we know that well.

PREVENTIVE MAINTENANCE PROGRAMS

Production continuity is a priority.

We offer standard or customized maintenance packages to meet your needs.

THROUGH PERIODIC CHECKS AND TARGETED INTERVENTIONS, WE ARE ABLE TO DRASTICALLY REDUCE MACHINE DOWNTIME, PREVENTING UNEXPECTED FAILURES AND EXTENDING THE USEFUL LIFE OF THE PLANT. EVERY MAINTENANCE ACTIVITY IS DESIGNED TO ENSURE THAT THE MACHINES ARE ALWAYS PROPERLY MAINTAINED, PERFORMING WELL AND READY TO GUARANTEE MAXIMUM PRODUCTIVITY.

TRAINING ACADEMY

Selling a machine is never the end of the journey, but the beginning of a shared journey.

Our goal is clear: to provide all the skills necessary to use the machines to their full potential. A thorough understanding of every function and possibility not only allows you to optimize processes, but also to intervene independently and quickly in the event of minor malfunctions or anomalies.

THAT IS WHY WE OFFER TRAINING SESSIONS DEDICATED TO THE CUSTOMER'S STAFF, EITHER DIRECTLY AT THEIR PREMISES OR AT OUR SPECIALIZED CENTERS.

TRAINING ACADEMY

Investing in training means making the customer more independent, more confident, and more efficient. And we are at your side to ensure that every machine is used to its full potential, right from day one.

UPDATES AND UPGRADES

Every machine always stays up to date with innovation.

We use modern components that are easily available on the market, so as to bypass any problems associated with obsolete technologies and ensure simple management even in the event of spare parts requirements.

WE OFFER UPGRADE AND CONTINUOUS UPDATE SOLUTIONS, DESIGNED TO ENSURE NOT ONLY MAXIMUM OPERATIONAL EFFICIENCY, BUT ALSO COMPLETE RELIABILITY OVER TIME.

UPDATES AND UPGRADES

Thanks to these upgrades, the customer can make the most of all the potential of the system, extending its useful life and maintaining its high value over time.

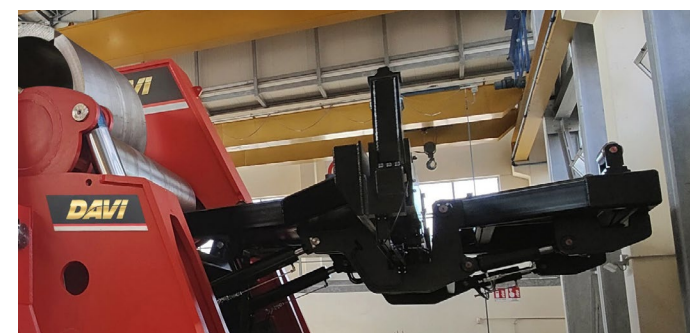

RETROFITTING OPTIONS

Our machines are designed modularly to be easily equipped with accessories.

Thanks to this modular implementation, it is possible to modify the composition of the system according to changes in production, optimizing time, results, and investments.

Each accessory is designed to work in perfect synergy with the machine, maintaining high performance and ensuring simple and efficient management.

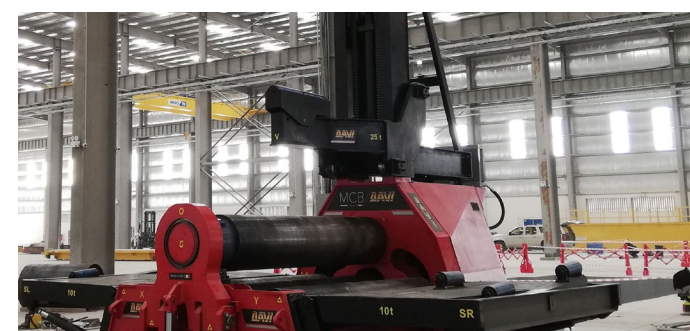

WE CAN EQUIP MACHINES WITH ALL TYPES OF SUPPORTS, ACCESSORIES, AND ANYTHING ELSE THAT ALLOWS YOU TO MAKE YOUR PRODUCTION PROCESS MORE EFFICIENT AND EFFECTIVE. QR CODE FOR THE COMPLETE RANGE.

Side supports

Outfeed conveyors

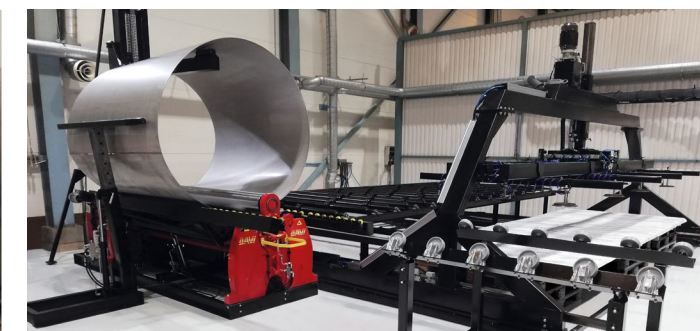

Overhead supports

Ejectors

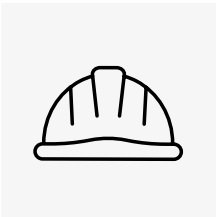

Infeed conveyors

Automatic lines for high productivity or Smart Lines for Wind Energy

RETROFITTING OPTIONS

Our comprehensive range of accessories allows you to adapt your machine to any new production requirement.

SAFETY DEVICES

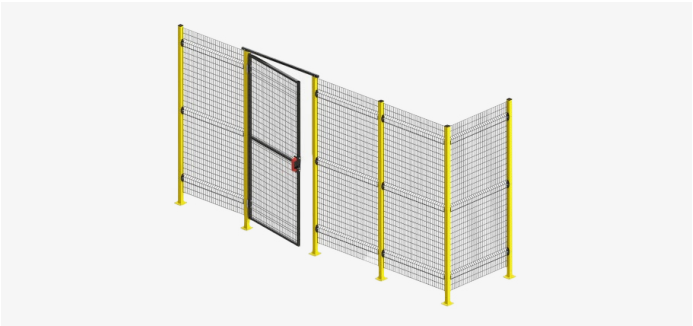

Working safely is no longer optional.

Your staff is your most valuable asset. We can help you increase the safety level of your machines. We have several options available to ensure the highest safety standards.

WE OFFER SOLUTIONS TO ENSURE THAT YOU WORK IN COMPLIANCE WITH THE HIGHEST SAFETY STANDARDS WHILE MAINTAINING THE SAME LEVEL OF PRODUCTION EFFICIENCY.

Light curtains

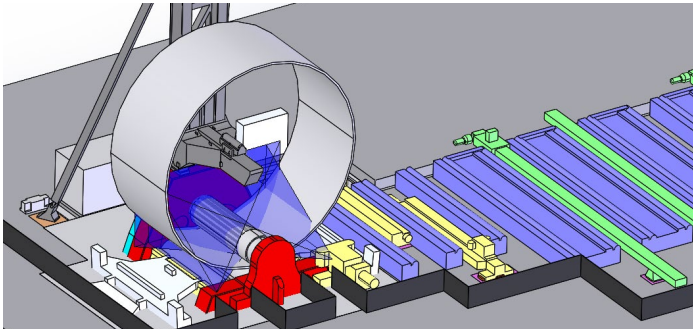

Safety barriers

Laser scanner

Badge login management

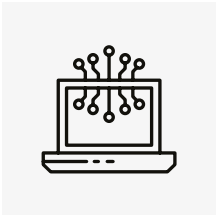

Human detection system

Remote control

SAFETY DEVICES

Thanks to our devices, even machines that have been installed for some time will be able to comply with current safety standards.

MEASURING DEVICES AND DESKTOP SOFTWARES

Technology at your service for high-quality rolling.

Thanks to our measuring instruments, you can automatically and safely detect the radius, roundness, or elongation of your parts. Our office software allows you to develop rolling programs in an optimal and effective manner.

WE CAN GUARANTEE FULLY AUTOMATED, DIGITIZED MEASUREMENTS OF YOUR PRODUCTS WITH MINIMAL TOLERANCES.
